

CONGRATULATIONS...

...on getting your GMRS License...

Now What's Your NEXT STEP?

An Open Invitation from REACT —

Welcome to the General Mobile Radio Service — or GMRS.

Your new license is more than just a piece of paper, it's an instant opportunity. You may not know it, but many REACT teams are already using GMRS to report traffic accidents, road closures, and to maintain contact with each other and their loved ones.

As part of the REACT Network of Teams, we would like to extend an invitation to you to join us at our next team meeting. We are a local REACT team, and can provide you and your family with free training, information on active GMRS radio frequencies in the local area, and offer suggestions on GMRS radios that will enhance the use of your GMRS license.

If you already own a GMRS radio, and decide to accept our offer to attend one of our meetings, may we suggest you bring your radio with you? We will be able to demonstrate how we use GMRS for our operations, and also how we use GMRS during team training scenarios and other local exercises.

If you haven't already purchased a GMRS radio, we would like to recommend that you wait — at least until you've had the opportunity to talk with us. As you may already know, there are lots of options available on GMRS radios, and these can sometimes be confusing — especially if this is your first license.

REACT has many personal communications options to choose from. Some teams use one or more of these radio services:

- ◆ Amateur Radio Service (ARS)
- ◆ General Mobile Radio Service (GMRS)
- ◆ Family Radio Service (FRS)
- ◆ Multi-Use Radio Service (MURS)
- ◆ Citizens Band Radio Service (CB)

Again, we would like the opportunity to introduce ourselves to you, and would also like to explain the radio services we use within our team operations. You will learn something about us, and maybe we can also learn something from you as well.

OUR PROMISE: You will not be asked to join — no membership information will be “pushed” on you at any time during your visit.
